PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Java backend development with hands-on experience building secure and scalable applications using Java, Spring Boot, Spring Security, JWT Authentication, Docker, AWS, and Microservices. Skilled in developing REST APIs, integrating relational databases, and deploying applications to cloud platforms. Passionate about backend engineering, distributed systems, and building AI-powered full-stack applications.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, C++, SQL
 - **Frameworks:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT Authentication, Microservices
 - **Web Technologies:** HTML, CSS
 - **Databases:** SQL, H2 Database, PostgreSQL
 - **Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code
 - **Cloud & DevOps:** Docker, AWS
 - **Core Concepts:** REST APIs, OOP, CRUD operations, Authentication & Authorization, API Design
-

PROJECTS

StudHunt AI – Student Productivity & Community Platform

💻 Github [ayushah/StudHunt_AI](#) | 🌐 [StudHunt-AI/LiveDemo](#)

- Built full-stack app using Spring Boot + React for AI-based study assistance
- Creating a full-stack student platform that utilizes AI with Spring Boot and React.
- Developing secure authentication using Spring Security and JWT for access control.
- Creating REST APIs for posts, comments, profiles and AI learning features.
- Docker for deployment of the backend.
- Backend deployment on Render with frontend on Vercel, Also resolved CORS and routing issues.
- Implementing PostgreSQL/MySQL as the persistent data store with Spring Data JPA.

FeelFree AI – Anonymous Emotional Support Platform

💻 Github [ayushah08/feel-free](#) [Final: An Official FeelFree Project repo](#)

📺 Youtube https://youtu.be/1seZ5TgyY_c

- Developed the backend of an anonymous mental wellness platform using Spring Boot.
 - Designed a layered architecture following the Controller-Service-Repository pattern.
 - Implemented secure authentication using Spring Security and JWT.
 - Built REST APIs with request validation and global exception handling.
 - Integrated MySQL using Spring Data JPA.
 - Tested APIs using Postman.
-

EDUCATION

Bachelor of Computer Applications (BCA)

Sahyog College | 2024 – 2027

Higher Secondary Education (Science)

SHVOV Junior College | 2022 – 2024
