PROFESSIONAL SUMMARY

Computer Science student focused on backend development using Java. Experienced with Spring Boot for building REST APIs and integrating them with MySQL databases. Most of my learning comes from developing projects where I focus on writing structured and practical code.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, C++
- **Frameworks:** Spring Boot, Spring Data JPA
- **Web Technologies:** HTML, CSS
- **Databases:** MySQL, H2-console
- **Tools:** Git, GitHub, Maven, Postman
- **Core Concepts:** REST APIs, OOP, CRUD operations

PROJECTS

FeelFree AI – Anonymous Emotional Support Platform

GitHub ayushah08/feel-free_Final: An Official FeelFree Project repo

Youtube https://youtu.be/1seZ5TgyY_c

- Developed a backend system where users can share thoughts anonymously and receive AI-based responses
- Built REST APIs using Spring Boot to handle sending and retrieving messages
- Used MySQL to store user queries and responses
- Structured the project using Controller, Service, and Repository layers
- Tested APIs using Postman to ensure correct functionality and responses
- Implemented basic validation and error handling

EDUCATION

Bachelor of Computer Applications (BCA)
Sahyog College | 2024 – 2027

Higher Secondary Education (Science)
SHVOV Junior College | 2022 – 2024
